E2. GENERAL REGULATIONS

E2.1 Undertaking Of The Company

E2.1.1 Scope

- A. The Company does not undertake to transmit messages under this Tariff.
- B. The Company shall be responsible only for the installation, operation and maintenance of the services it provides.
- C. The Company will, for maintenance purposes, test its services only to the extent necessary to detect and/or clear troubles.
- D. Services are provided 24 hours daily, seven days per week, except as set forth in other applicable sections of this Tariff.
- E. The Company does not warrant that its facilities and services meet standards other than those set forth in this Tariff.

E2.1.2 Limitations

- A. The customer may not assign or transfer the use of services provided under this Tariff, except as provided herein. Where there is no interruption of use or relocation of the services, such assignment or transfer may be made to:
 - 1. Another customer, whether an individual, partnership, association or corporation, provided the assignee or transferee assumes all outstanding indebtedness for such services, and the unexpired portion of the minimum period and the termination liability applicable to such services, if any; or
 - 2. A court appointed receiver, trustee or other person acting pursuant to law in bankruptcy, receivership, reorganization, insolvency, liquidation or other similar proceedings, provided the assignee or transferee assumes the unexpired portion of the minimum period and the termination liability applicable to such services, if any.

In all cases of assignment or transfer, the written acknowledgement of the Company is required prior to such assignment or transfer. Such acknowledgement shall be made within 15 days from the receipt of notification. All regulations and conditions contained in this Tariff shall apply to such assignee or transferee.

The assignment or transfer of services does not relieve or discharge the assignor or transferor from remaining jointly or severally liable with the assignee or transferee for any obligations existing at the time of the assignment or transfer.

- B. The use and restoration of services shall be in accordance with Part 64, Subpart D, Appendix A, of the Federal Communications Commission's Rules and Regulations, which specifies the priority system for such activities.
- C. Subject to compliance with the rules mentioned in B. preceding, the services offered herein will be provided to customers on a first-come, first-served basis.
- D. Terms and conditions for central office interconnection of collocator-provided Company leased equipment are set forth in Tariff F.C.C. No. 1, Section 20. Virtual Collocation Cross-Connect rates and charges are provided in Section 6 of Tariff FCC No. 1 and Section E7. of this intrastate Tariff for each service allowed under collocation guidelines.

(D)
(C)

E2.1.3 Liability

- A. The Company's liability, if any, for its willful misconduct is not limited by this Tariff. With respect to any other claim or suit, by a customer, or by any others, for damages associated with the installation, provision, preemption, termination, maintenance, repair or restoration of service, and subject to the provisions of B. through H. following, the Company's liability, except as set forth in E2.1.3 following, if any, shall not exceed an amount equal to the proportionate charge for the service for the period during which the service was affected. This liability for damages shall be in addition to any amounts that may otherwise be due the customer under this Tariff as a Credit Allowance for a Service Interruption.
- B. The Company shall not be liable for any act or omission of any other carrier or customer providing a portion of a service, nor shall the Company for its own act or omission hold liable any other carrier or customer providing a portion of a service.

E2. GENERAL REGULATIONS

E2.1 Undertaking Of The Company (Cont'd)

E2.1.3 Liability (Cont'd)

K. Transmission of Data

The Company shall not be held liable for any damage, harm or loss of data caused by the subscriber using the Company's voice-grade telephone access lines and/or facilities for the transmission of data. ***Voice-grade lines are primarily conditioned to handle data speeds up to 9.6 kilobits per second (kbps).*** The Company's liability shall be limited to errors or damages to the transmission of voice messages over these facilities, and the liability shall be limited to an amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

The Company's liability for damages or errors caused during the transmission of data over any of the Company's data facilities shall be limited to an amount equal to the proportionate charge for the service for the period during which the service was affected.

L. Errors or Damages Caused by System Date Limitations

The Company's liability for errors or damages resulting from the inability of the Company's systems to process dates, such as the Year 2000, shall be limited to an amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

M. Unauthorized Devices

The Company shall not be held liable or responsible for any damage or harm that may occur as the result of unauthorized devices or the failure of the Company to detect unauthorized devices on the subscriber's line.

E2.1.4 Provision Of Services

The Company, to the extent that such services are or can be made available with reasonable effort, and after provision has been made for the Company's telephone exchange services, will provide to the customer upon reasonable notice services offered in other applicable sections of this Tariff at rates and charges specified therein.

E2.1.5 Installation And Termination Of Services

The Access Services provided under this Tariff will (A) include any entrance cable or drop wiring and wire or intrabuilding cable to that point where provision is made for termination of the Company's outside distribution network facilities at a suitable location inside a customer-designated premises and (B) will be installed by the Company to such Point of Termination. Each Access Service has only one Point of Termination per customer premises. Any additional terminations beyond such Point of Termination is the sole responsibility of the customer. The Point of Termination is an inherent part of BellSouth SWA and Special Access (a.k.a. BellSouth SPA) services, therefore, the preceding does not preclude the customer's ability to have each Point of Termination moved as set forth in E7.4.5 following.

E2.1.6 Maintenance Of Services

The services provided under this Tariff shall be maintained by the Company. The customer or others may not rearrange, move, disconnect, remove or attempt to repair any facilities provided by the Company other than by connection or disconnection to any interface means used, except with the written consent of the Company.

E2.1.7 Changes And Substitutions

Except as provided for equipment and systems subject to F.C.C. Part 68 Regulations at 47 C.F.R. Section 68.110(b), the Company may, where such action is reasonably required in the operation of its business:

A. Substitute, change or rearrange any facilities used in providing service under this Tariff, including but not limited to:

1. Substitution of different metallic facilities,
2. Substitution of carrier or derived facilities for metallic facilities used to provide other than metallic facilities, and
3. Substitution of metallic facilities for carrier or derived facilities used to provide other than metallic facilities,

E2.1.7 Changes And Substitutions (Cont'd)

- B. Change minimum protection criteria,
- C. Change operating or maintenance characteristics of facilities, or
- D. Change operations or procedures of the Company.

In case of any such substitution, change or rearrangement, the transmission parameters will be within the range as set forth in Section 6 of Tariff FCC No. 1 and Section E7. of this intrastate Tariff. The Company shall not be responsible if any such substitution, change or rearrangement renders any customer furnished services obsolete or requires modification or alteration thereof or otherwise affects their use or performance. If such substitution, change or rearrangement materially affects the operating characteristics of the facility, the Company will provide reasonable notification to the customer in writing. Reasonable time will be allowed for any redesign and implementation required by the change in operating characteristics. The Company will work cooperatively with the customer to determine reasonable notification requirements.

E2.1.8 Refusal And Discontinuance Of Service

- A. Unless the provisions of E2.2.1.B. or E2.5. following apply, if a customer fails to comply with E2.1.6. preceding or E2.2.2., E2.3.1., **E2.3.6., E2.3.7., E2.3.14.** or E2.4. following, including any payments to be made by it on the dates and times herein specified, the Company may, on thirty (30) days written notice by Certified U.S. Mail **or Overnight Delivery** to the person designated by that customer to receive such notices of noncompliance, refuse additional applications for service and/or refuse to complete any pending orders for service by the noncomplying customer at any time thereafter. If the Company does not refuse additional applications for service on the date specified in the thirty (30) days notice, and the customer's noncompliance continues, nothing contained herein shall preclude the Company's right to refuse additional applications for service to the noncomplying customer without further notice.
- B. Unless the provisions of E2.2.1.B. or E2.5. following apply, if the customer fails to comply with E2.1.6. preceding or E2.2.2., E2.3.1., **E2.3.6., E2.3.7., E2.3.14.** or E2.4. following, including any payments to be made by it on the dates and times herein specified, the Company may, on thirty (30) days written notice by Certified U. S. Mail **or Overnight Delivery** to the person designated by that customer to receive such notices of noncompliance, discontinue the provision of the services to the noncomplying customer at any time thereafter. In the case of such discontinuance, all applicable charges, including termination charges, shall become due. If the Company does not discontinue the provision of the services involved on the date specified in the thirty (30) days notice, and the customer's noncompliance continues, nothing contained herein shall preclude the Company's right to discontinue the provision of the services to the noncomplying customer without further notice.
- C. In addition to and not in limitation of the provisions of E2.1.8.A. and E2.1.8.B. preceding, unless the provisions of E2.2.1.B. or E2.5. following apply, if a customer fails to comply with E2.4.1.A. or with E2.4.1.B.3. following, including any payment to be made by it on the dates and times herein specified, the Company may take actions specified in E2.1.8.A. and E2.1.8.B. on fifteen (15) calendar days written notice, such notice period to start the day after the notice is rendered by Certified Mail or Overnight Delivery, if the customer has not complied with respect to amounts due in a subject bill and either:
 - 1. The Company has within seven (7) business days of the subject bill date:
 - a. Mailed via the United States Postal Service (USPS) to the customer the subject bill in paper or CDROM form, or
 - b. Overnight service delivered to the customer the subject bill in Magnetic Tape form, or
 - c. Electronically Transmitted to the customer the subject bill.

The Company will maintain records sufficient to validate the date upon which a subject bill was rendered to the customer.

C. (Cont'd)

2. The Company has rendered the subject bill, using one of the media described in 1. above, to the customer more than thirty (30) calendar days before notice under this section has been rendered.

In all other cases, the Company will give thirty (30) calendar days written notice pursuant to E2.1.8.A. of E2.1.8.B.. Action will not be taken with regard to the subject bill if the customer cures the noncompliance prior to the expiration of the fifteen (15) or thirty (30) calendar day notice period, as applicable.

E2.1.9 Limitation Of Use Of Metallic Facilities

Signals applied to the metallic facility shall conform to the limitations set forth in Technical Reference Publication AS No. 1. In the case of application of dc telegraph signaling systems, the customer shall be responsible, at its expense, for the provision of current limiting devices to protect the Company facilities from excessive current due to abnormal conditions and for the provision of noise mitigation networks when required to reduce excessive noise.

E2.1.10 Notification Of Service-Affecting Activities

The Company will provide the customer reasonable notification of service-affecting activities that may occur in normal operation of its business. Such activities may include, but are not limited to, equipment or facilities additions, removals or rearrangements, routine preventive maintenance and major switching machine change-out. Generally, such activities are not individual customer service specific, they affect many customer services. No specific advance notification period is applicable to all service activities. The Company will work cooperatively with the customer to determine the notification requirements.

E2.1.11 Coordination With Respect To Network Contingencies

The Company intends to work cooperatively with the customer to develop network contingency plans in order to maintain maximum network capability following natural or man-made disasters that affect telecommunications services.

This includes developing plans for originating or terminating traffic associated with mass calling events directed to end users served from specific end offices. Where it is determined that such non-random calling generates problems on the Telephone Company's Common Transport network, the Telephone Company will work cooperatively with the customer to relieve the traffic congestion. Remedial measures may include isolation of the customer from the Telephone Company network in the impacted area for the duration of the problem or until the customer notifies the Telephone Company that the problem has been resolved.

E2.1.12 Provision And Ownership Of Telephone Numbers

The Company reserves the reasonable right to assign, designate or change telephone numbers, any other call number designations associated with Access Service, or the Company serving central office prefixes associated with such numbers, when necessary in the conduct of its business. Should it become necessary to *make a* change in such number(s), the Company will furnish to the customer 6 months notice, by Certified U.S. Mail, of the effective date and an explanation of the reason(s) for such change(s).

E2. GENERAL REGULATIONS

E2.3 Obligations Of The Customer (Cont'd)

E2.3.14 Jurisdictional Report Requirements¹

A. Jurisdictional Reports

1. Percent Interstate Usage (PIU)

- a. The interstate usage is to be developed as though every call that originates from a calling location (as designated by the calling station number) within the same as that in which the called station (as designated by the called station number) is situated is an intrastate communication and every call for which the point of origination (as designated by the calling station number) is in a state other than that where the called station (as designated by the called station number) is situated is an interstate communication. The manner in which a call is routed through the telecommunications network does not affect the jurisdiction of a call, i.e., a call between two points within the same state is an intrastate communication even if the call is routed through another state.
- b. When the Company receives sufficient call detail to permit it to determine the jurisdiction of originating and terminating access minutes of use, the Company will bill according to these actual minutes of use and will not use customer reported Percent Interstate Usage (PIU) factors.

The Company developed percent interstate usage for access minutes of use will be determined at a statewide level. The interstate percentage will be developed on a monthly basis by end office, when the access minutes are measured by dividing the measured interstate originating or terminating access minutes (the access minutes where the calling number is in one state and the called number is in another state) by the total originating or terminating access minutes.

The Company will bill according to actual measured minutes of use or messages for all services listed in c. and 5. following, with the exception of those listed following:

- BellSouth SWA Local Channel
- BellSouth SWA Dedicated Interoffice Channel
- BellSouth Inward Operator Service
- BellSouth Billing Name and Address
- Channelization Equipment
- DNALs² associated with BellSouth SWA LSBSA

Where the Company receives insufficient call detail to identify the calling station to determine the jurisdiction, the Company will charge the applicable rates for terminating BellSouth SWA as set forth in this Tariff. There may be a percentage of usage where it is not possible to know, and therefore to send to BellSouth, the needed originating information. Accordingly, BellSouth will charge the terminating BellSouth SWA rate for only those minutes lacking originating information from all SWA customers, currently **19.22%** (the "floor"). For example, if 30% of a customer's minutes sent to BellSouth do not contain sufficient originating information to allow BellSouth to determine the originating location, then BellSouth would apply the provisions of this tariff to those minutes exceeding the "floor", or **10.78%** in this example.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA). (C)

Note 2: Where BellSouth SWA LSBSA is provisioned with a DNAL, the DNAL rates should be apportioned between interstate and intrastate using the same PIU factor as applied to the associated BellSouth SWA LSBSA. (C)

b.(Cont'd)

BellSouth will recalculate the overall SWA customer average “floor” quarterly. In addition, subsequent reviews or audits of specific customer usage may result in a new “floor” for that customer.

In the event that BellSouth applies the intrastate terminating access rate to calls without sufficient originating information as provided in this tariff, BellSouth’s access customers will have the opportunity to request backup documentation of BellSouth’s basis for such application, and further request that BellSouth change the application of the intrastate access rate upon a showing of why the intrastate rate should not be applied.

For the purpose of this tariff, where the customer is a *Third-Party Provider* (“*Third-Party Provider*”) of CCS7 services to its customers (“Third Party Customers”), the *Third-Party Provider* will develop its projected PIU factor based upon a weighted average of the PIUs of its Third Party Customers’ end user traffic in accordance with the procedures described below. *A Third-Party Provider may elect to have the Company determine the weighted PIU and in so doing the Third-Party Provider shall name and identify their Third Party Customers. In the event a Third Party Provider does not provide a projected PIU or does not elect to have the Company determine the PIU, a 50 percent PIU will be utilized for that Third-Party Provider, until such time as the Company obtains sufficient data to develop the PIU as specified in c. following.* In the event a Third Party Customer does not provide a projected PIU, a 50 percent PIU will be utilized for that Third Party Customer.

The customer will provide in its initial order the projected Percent Interstate Usage (PIU) at a statewide level on a local exchange company specific basis. When the customer computes the PIU it will subtract the developed PIU from 100 and the difference is the percent intrastate usage. The sum of the interstate and intrastate percentages will equal 100 percent. A PIU of less than 100 percent is not allowed where the service is not available as an intrastate access service. The projected PIU may include up to two decimals.

The Company will designate the number obtained by subtracting the projected interstate furnished by the customer from 100 (100 – customer percentage – intrastate percentage) as the projected intrastate percentage of use.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA). - c. When a customer initially orders service(s), as defined in the following, the customer will state in its order the Percent Interstate Usage (PIU) separately for each, as set forth in a. and b. preceding.

- BellSouth SWA FGA
- BellSouth SWA FGB
- BellSouth SWA FGD
- BellSouth SWA 500 Service
- 700 Service
- BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service

A. Jurisdictional Reports (Cont'd)

1. Percent Interstate Usage (PIU) (Cont'd)

The customer will provide a single factor as the projected Percent Interstate Usage (PIU) to apportion the usage between interstate and intrastate. This factor will be applied to the following categories:

- Switched Local Channel
- BellSouth SWA Dedicated Interoffice Channel
- Channelization Equipment

The PIU category, BellSouth SWA Local Channel, includes Dedicated End Office Trunk Port Service and Dedicated Tandem Trunk Port Service charges and other flat rated charges not specifically covered by other PIU categories.

The PIU factor provided for each of the foregoing facilities categories (Switched Local Channel, BellSouth SWA Dedicated Interoffice Channel and Channelization Equipment) will reflect the combination of all traffic types which traverse such facility category.

When Special Access (a.k.a. BellSouth SPA) service is provided on a BellSouth SWA facility, e.g., Special Access (a.k.a. BellSouth SPA) DS1 on a BellSouth SWA DS3, the facility will be apportioned between BellSouth SWA and Special Access (a.k.a. BellSouth SPA). The jurisdiction of the Special Access (a.k.a. BellSouth SPA) service shall reflect the composite of the jurisdiction of the lower capacity services, if any, of which it is comprised.

The customer shall compute the PIU using the following formula (rounded to a whole percentage).

$$\frac{\text{Total Interstate Originating Minutes}}{\text{Total Originating Minutes}} + \frac{\text{Total Interstate Terminating Minutes}}{\text{Total Terminating Minutes}}$$

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA)

A. Jurisdictional Reports (Cont'd)

2. For BellSouth Directory Assistance Access, the Company developed PIU for BellSouth SWA FGD terminating will apply.
3. *For BellSouth CCS7 Access Arrangement, the customer must state in its order the PIU anticipated as specified in c. preceding. The PIU reported will then be applied to the rates for Signaling Connections and Terminations to arrive at the amount the customer is billed for intrastate usage of these facilities each month. In addition, the PIU will be applied to the total messages and the resulting figure multiplied by the appropriate rate per message to determine the amount that the customer will be billed for intrastate usage. Subsequent PIU factors will be reported as required in (5) following.*
4. *Effective July 1, 2001, the customer will update the jurisdictional report associated with BellSouth CCS7 Access Arrangement, when both intrastate and interstate service is provided.*

Effective October 1, 2000, the customer will provide a single factor as the projected Percent Interstate Usage (PIU) to apportion the usage between interstate and intrastate. This PIU will apply to the following categories: Switched Local Channel, BellSouth SWA Dedicated Interoffice Channel and Channelization Equipment.

Effective July 1, 2000, the customer's projected Percent Interstate Usage (PIU) will be provided at a statewide level on a local exchange company specific basis.

Effective on the first of January, April, July and October of each year the customer will update the interstate and intrastate jurisdictional report. The customer will forward to the Company, to be received no later than 30 days after the first of each such month, a revised report for all services showing the interstate and intrastate percentage of use for the past three months ending the last day of December, March, June and September, respectively, for each service arranged for interstate use. The revised report will serve as the basis for the next three months billing, and will be effective on the bill date for that service. If the customer does not supply an updated quarterly report, the Company will assume the percentage interstate usage to be the same PIU as provided in the last quarterly report accepted by the Company. If an audit has been completed and an updated quarterly report has not been submitted subsequent to the audit, the Company will assume the PIU factors to be the most recent audited results. For those cases in which a quarterly report has never been received from the customer, the Company will assume the PIU factors to be the most recent audit results or to be the same as provided in the order for service if no audit has been performed.

5. When mixed interstate and intrastate Special Access (a.k.a. BellSouth SPA) service is provided, the jurisdiction will be determined as follows:
 - If the IC's estimate of the interstate traffic on the service involved constitutes 10 percent or less of the total traffic on that service, the service will be provided in accordance with the applicable rules and regulations of this Tariff.
 - If the IC's estimate of the interstate traffic on the service involved constitutes more than 10 percent of the total traffic on that service, the service will be provided in accordance with the applicable rules and regulations of the BellSouth Telecommunications, LLC Tariff FCC No. 1.

The IC shall keep records from which the percentage of interstate and intrastate use was estimated and upon request of the Company make the records available for inspection as reasonably necessary for purposes of verification of the percentages. The IC shall supply the data within 30 days of the Company request.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

B. Jurisdictional Report Verification

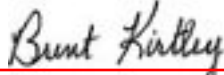

1. When a customer provides a projected interstate usage percent as set forth in A. preceding, or when a billing dispute arises or a regulatory commission questions the projected interstate percentage for BellSouth SWA, the Company may, by written request, require the customer to provide the data the customer used to determine the projected interstate percentage. *In the case of a third-party provider of CCS7 service to Third Party Customers as described in A. preceding, the data will include the data provided by the Third Party Customers.* This written request will be considered the initiation of the audit. The customer shall supply the data to an independent auditor within thirty days of the Company request. The customer shall keep records of call detail from which the percentage of interstate and intrastate use can be ascertained as set forth in C. following and upon request of the Company make the records available for inspection at an agreed upon location during normal business hours as reasonably necessary for purposes of verification of the percentages. The Company will audit data from one quarter unless a longer period is requested by the customer and agreed to by the Company. Changes to the reported PIU will not be made for the test period. If the customer does not provide the requested data to the Company or independent auditor within thirty (30) days of the notice of audit, the customer will be in violation of this Tariff and subject to E2.1.8 preceding.
2. For BellSouth SWA service, verification audits may be conducted no more frequently than once per year except in extreme circumstances. The Company and customer will attempt to limit the audit to a reasonable time to effectively complete the audit. The Company and customer shall respond promptly to requests generated during the audit to ensure timely completion of the audit.

The Company will work cooperatively with other Local Exchange Companies to develop joint audits of a customer in an effort to limit a customer's total state PIU audit to one per year.

3. Audits may be conducted by: (a) an independent auditor under contract to the Company; (b) a mutually agreed upon independent auditor; or (c) an independent auditor selected and paid for by the customer. If the customer selects option (c), where it pays for its own independent audit, the selected auditor must certify that the audit was performed following FCC procedures for measuring interstate and intrastate traffic as established by Commission Orders, and provide to the Company a report with supporting documentation to verify such procedures.

Note 1: Except where indicated herein, references to BellSouth SWA FGs will also include the applicable BellSouth SWA Basic Serving Arrangement as detailed in the matrix in Section 6.1.3 Tariff FCC No. 1 (e.g., the term BellSouth SWA FGA represents both BellSouth SWA FGA and BellSouth SWA LSBSA).

E2.3 Obligations Of The Customer (Cont'd)

E2.3.14 Jurisdictional Report Requirements¹ (Cont'd)

B. Jurisdictional Report Verification (Cont'd)

4. If a billing dispute arises or a regulatory commission questions the projected interstate percentage for Special Access (*a.k.a. BellSouth SPA*) service, the Company will ask the customer to provide the data the customer uses to determine the projected interstate percentage. The customer shall supply the data within thirty days of the Company request to an independent auditor. The customer shall keep records from which the percentage was determined and upon request of the Company make the records available for inspection as reasonably necessary for purposes of verification of the percentages.

C. Maintenance of Customer Records for *BellSouth SWA*

1. The customer shall retain for a minimum of six (6) months call detail records that substantiate the interstate percent provided to the Company as set forth in A. preceding for *BellSouth SWA* service. Such records shall consist of a. and b., (if applicable,) following:
 - a. All call detail records such as workpapers and/or backup documentation including paper, magnetic tapes or any other form of records for billed customer traffic, call information including call terminating address (i.e., called number), the call duration, all originating and terminating trunk groups or access lines over which the call is routed, and the point at which the call enters the customer's network and;
 - b. If the customer has a mechanized system in place that calculated the PIU, then a description of that system and the methodology used to calculate the PIU must be furnished and any other pertinent information (such as but not limited to flowcharts, source code, etc.) relating to such system must also be made available.

D. Audit Results for *BellSouth SWA*

1. Audit results will be furnished to the customer via Certified U.S. Mail (return receipt requested.) The Company will adjust the customer's PIU based upon the audit results. The PIU resulting from the audit shall be applied to the usage for the quarter the audit was completed, the usage for the quarter prior to completion of the audit, and to the usage for the two (2) quarters following the completion of the audit. After that time, the customer may report a revised PIU pursuant to A. preceding. If the revised PIU submitted by the customer represents a deviation, five percentage points or more, from the audited PIU, and that deviation is not due to identifiable reasons, the provisions in B. preceding will be applied.
2. Both credit and debit adjustments will be made to the customer's interstate and intrastate access charges for the specified period to accurately reflect the usage for the customer's account consistent with Section E2.4.1 following.
3. If, as a result of an audit conducted by an independent auditor, under contract to the Company, a customer is found to have overstated the PIU by twenty percentage points or more, the Company shall require reimbursement from the customer for the cost of the audit. Such bill(s) shall be due and paid in immediately available funds thirty days from receipt and shall carry a late payment penalty as set forth in E2.4.1 following.

Note 1: Except where indicated herein, references to *BellSouth SWA FGs* will also include the applicable *BellSouth SWA* Basic Serving Arrangement as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term *BellSouth SWA* FGA represents both *BellSouth SWA* FGA and *BellSouth SWA* LSBSA).

E. Contested Audits

1. When a PIU audit is conducted by an independent auditor selected by the Company, the audit results will be furnished to the customer by Certified U.S. Mail (return receipt requested). The customer may contest the audit results based on substantive cause by providing written notification, by Certified U.S. Mail (return receipt requested), to the Company within thirty (30) calendar days from the date the audit report is furnished to the customer by Certified U.S. Mail. When a PIU audit is conducted by an independent auditor selected by the customer, the audit results will be furnished to the Company by Certified U.S. Mail (return receipt requested). The Company may contest the audit results by providing written notification, by Certified U.S. Mail (return receipt requested), to the customer within thirty (30) calendar days from the date the audit report is furnished to the Company by Certified U.S. Mail.
2. Contested audits may be resolved by a neutral arbitrator mutually agreed upon by the Company and the customer. Arbitration is an option provided in addition to the customer's existing right to file a complaint or legal action in a court of law or at the Commission for resolution of the dispute. The arbitration hearing will be conducted in a state or location within the Company operating territory where the customer maintains a principle or significant presence, as mutually agreed upon by both parties, or a state and location within the Company operating territory that is mutually agreed upon by both parties. The arbitration proceeding shall be governed by the law (both statutory and case) of the state in which the arbitration hearing is held, including, but not limited to, the Uniform Arbitration Act, as adopted in that state. The arbitration shall determine the customer's PIU based on A. preceding.
3. Prior to the arbitration hearing, each party shall notify the arbitrator of the PIU percentage which that party believes to be correct. The arbitrator, in deciding, may adopt the PIU percentage of either party or may adopt a PIU percentage different from those proposed by the parties. If the arbitrator adopts a PIU percentage proposed by one of the parties, the other party (whose PIU percentage was not adopted) shall pay all costs of the arbitration. If the arbitrator adopts a PIU percentage higher than either of the PIU percentages proposed by the parties, then the party proposing the lower PIU percentage shall pay all costs of the arbitration. If the arbitrator adopts a PIU percentage lower than either of the PIU percentages proposed by the parties, then the party proposing the higher PIU percentage shall pay all costs of the arbitration. If the arbitrator adopts a PIU percentage which falls between the two percentages adopted by the parties, then the parties shall each pay one-half of the arbitration costs.
4. Absent written notification, within the time frame noted above, the customer must comply with the provisions set forth in D. preceding. If the customer fails to comply with these provisions, the Company may refuse additional applications for service and/or refuse to complete any and all pending orders for service or may discontinue the provision of the services to the customer as specified in E2.1.8 preceding.

Note 1: Except where indicated herein, references to *BellSouth SWA FGs* will also include the applicable *BellSouth SWA* Basic Serving Arrangement as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term *BellSouth SWA* FGA represents both *BellSouth SWA* FGA and *BellSouth SWA* LSBSA).

E2.3.15 Determination Of Intrastate Charges For Mixed Interstate And Intrastate Access Service¹

- A. When mixed interstate and intrastate Access Service is provided, all charges (i.e., nonrecurring, monthly and/or usage) including optional feature and Basic Service Element (BSE) charges, will be prorated between interstate and intrastate. The percentage provided in the reports as set forth in E2.3.14.A. preceding will serve as the basis for prorating the charges. The percentage of an Access Service to be charged as intrastate is applied in the following manner:
1. For monthly and nonrecurring chargeable rate elements, multiply the percent intrastate use times the quantity of chargeable elements times the stated tariff rate per element.
 2. For usage sensitive (i.e., access minutes and calls) chargeable rate elements, multiply the percent intrastate use times the actual use (i.e., measured or Company assumed average use) times the stated tariff rate.

The intrastate percentage will change as revised usage reports are submitted or as lines or trunks are added or removed as set forth in E2.3.14 preceding.

E2.3.16 Sectionalization - Trouble Reporting

The customer will be responsible for reporting troubles, sectionalized to Company facilities and/or equipment. When troubles cannot be clearly sectionalized to the Company facilities and/or equipment, the Company will test cooperatively or independently to assist in trouble sectionalization.

Responsibility for payment of additional charges will apply as set forth in Section E13.

E2.3.17 Reserved For Future Use

E2.3.18 Reserved For Future Use

E2.3.19 800 Number Reporting

For *BellSouth SWA 8XX Toll Free Dialing* Ten Digit Screening service the customer will be responsible for reporting to the Company or directly to the Service Management System 800 numbers that are in service in the Company serving area and the activation date of every 800 number assigned.

Additionally, the provision of *BellSouth SWA 8XX Toll Free Dialing* Ten Digit Screening service, provided from Section 6 of Tariff FCC No. 1, requires the customer's subscription to basic *BellSouth 8XX Number Administration* service features found in Section E13. of this Tariff or as an alternative the provision of those features by other responsible organizations or through direct access by the customer to the Service Management System.

E2. GENERAL REGULATIONS

E2.3 Obligations Of The Customer (Cont'd)

E2.3.20 Identification and Rating of VoIP-PSTN Traffic

(A) Scope

This Section applies to VoIP-PSTN Traffic exchanged between the Company and the customer in time division multiplexing ("TDM") format that originates and/or terminates in Internet protocol ("IP") format. VoIP-PSTN traffic originates and/or terminates in IP format if it originates from and/or terminates to an end-user customer of a service that requires Internet protocol-compatible customer premises equipment.⁽¹⁾

- (1) This Section governs the identification of originating and terminating intrastate toll VoIP-PSTN traffic and facilities to which switched access rates apply (unless the parties have agreed otherwise) in accordance with the transitional Intercarrier Compensation framework for VoIP-PSTN traffic adopted by the Federal Communications Commission in its Report and Order, FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order"). Specifically, this Section establishes the method that will be used to identify the percentage of the customer's intrastate access traffic that will be treated as intrastate toll VoIP-PSTN traffic (referred to in this tariff as "Relevant VoIP-PSTN Traffic").
- (2) This Section applies to originating and terminating intrastate switched access minutes of use ("MOU") and facility rate elements of all Access customers.
- (3) The customer shall not modify its reported PIU factor to account for the VoIP-PSTN Traffic for MOU and facility rate elements.

(B) Rating of VoIP-PSTN Traffic

The Relevant VoIP-PSTN Traffic terminating from the customer to the Company and facility rate elements identified in accordance with this tariff section will be billed at rates equal to the Company's applicable tariffed interstate switched access rates as specified in BellSouth Telecommunications LLC Tariff F.C.C. No. 1 unless the corresponding intrastate rate is lower. If the intrastate rate is lower, then that rate will be used for billing. Hereafter, these billed rates will be referred to in this tariff as the relevant "VoIP Rates." Relevant VoIP-PSTN Traffic originating from the Company or another provider to the customer will be rated using intrastate rates and rate structure.

(C) Calculation and Application of Percent-VoIP-Usage Factors

The Company will determine the number of Relevant VoIP-PSTN Traffic terminating MOU and facility rate elements to which VoIP Rates will be applied under subsection (B), above, by applying the Percent VoIP Usage ("PVU") factor to the intrastate access terminating MOU exchanged and facilities between the Company and the customer. The PVU factors will be derived and applied as follows:

- (1) Although the Company has taken the position that this tariff, by its own terms, already applies to VoIP-PSTN traffic, as defined herein, the Company has included this Section in the tariff out of an abundance of caution to prevent any claim that it does not so apply, and to implement the decision by the Federal Communications Commission in its Report and Order in WC Docket Nos. 10-90, etc., FCC Release No. 11-161 (Nov. 18, 2011) ("FCC Order") that VoIP-PSTN access traffic should be exchanged at interstate access rates (unless the parties have agreed otherwise). By its terms, the FCC Order is prospective only, and does not address preexisting law with regard to the applicability of intercarrier compensation or the enhanced service providers ("ESP") exemption to VoIP-PSTN Traffic. Including this section in the tariff in no way alters or otherwise affects the applicability of this tariff to VoIP-PSTN Traffic before the effective date of the FCC Order.

E2. GENERAL REGULATIONS

E2.3 Obligations Of The Customer (Cont'd)

E2.3.20 Identification and Rating of VoIP-PSTN Traffic (Cont'd)

(C) Calculation and Application of Percent-VoIP-Usage Factors (Cont'd)

- (1) The customer will calculate and furnish to the Company a factor (the "PVUC") on an Access Customer Name Abbreviation ("ACNA") basis which would aggregate traffic from all Carrier Identification Code ("CIC") or Operating Company Numbers ("OCNs") associated with the ACNA. This PVUC represents the percentage (whole number) of the terminating intrastate access MOU that the customer exchanges with the Company end users in the state which is sent to the Company that originated in IP format at the end user. This PVUC shall be based on information such as the number of the customer's retail VoIP subscriptions in the state (*e.g.*, as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information satisfactory to the Company.
- (2) The Company will calculate and periodically update a factor (the "PVUT") representing the percentage (whole number) of the total intrastate access MOU that the Company exchanges with the customer's end users in the state which is received from the customer and terminated in IP format at the end user. This PVUT shall be based on information such as the number of the customer's retail VoIP subscriptions in the state (*e.g.*, as reported on FCC Form 477), traffic studies, actual call detail, or other relevant and verifiable information.
- (3) The Company will develop a customer Percent VoIP Usage ("PVU") factors combining the customer's PVUC factor with the Company's PVUT factor.
 - a) The PVU calculation below is applied when the Company does not bill based on actual call detail records for the intrastate Company's IP traffic at VoIP Rates.

$PVU = PVUC + [PVUT \times (1 - PVUC)]$ is applied to the Company's end user's terminating intrastate MOU and facility rate elements

Example: The customer reported that their PVUC as 40%. The Company's PVUT is 10%. This results in the following:

$PVU = 40\% \text{ plus } (10\% \text{ times } (1 - 40\%)) = 46\%$

This means that 46% of the terminating intrastate MOU exchanged between the customer and the Company's end users will be rated at VoIP Rates.

- b) The PVU calculation below is applied when the Company bills are based on the actual terminating call detail records for the intrastate Company's IP traffic at VoIP Rates.

The formula for usage will be as follows:

$PVU = PVUC \times (1 - PVUT)$ applied to the Company's TDM end user's terminating intrastate MOU.

$PVU = PVUC + [PVUT \times (1 - PVUC)]$ applied to the facility rate elements.

E2. GENERAL REGULATIONS

E2.3 Obligations Of The Customer (Cont'd)

E2.3.20 Identification and Rating of VoIP-PSTN Traffic (Cont'd)

(C) Calculation and Application of Percent VoIP Usage Factors (Cont'd)

(3) (Cont'd)

(b) (Cont'd)

Example: The Company has identified that there was 10,500 terminating intrastate MOU that were identified exchanged between the customer and the Company's IP end users. The customer reported that their PVUC as 40%. The Company's PVUT is 10%.

This results in the following:

$PVU = 40\% \text{ times } (1 - 10\%) = 36\%$

This means that 36% of the terminating intrastate MOU exchanged between the customer and the Company's TDM end users will be rated at VoIP Rates and the terminating intrastate 10,500 MOU will also be rated at VoIP Rates.

For the facility rate elements, the formula that is applied to the intrastate dedicated facilities is as follows:

$PVU = 40\% \text{ plus } (10\% \text{ times } (1 - 40\%)) = 46\%$

Therefore, 46% of the intrastate facilities will be rated at VoIP Rates.

- (4) The Company will apply the customer's PVUC to terminating traffic exchanged between the customer and third party providers (e.g. Independent Company and local exchange carrier) subtending the Company's access tandem.

The customer may elect to provide a different factor ("PVUC3") that represents the terminating VoIP-PSTN traffic that is exchanged between the customer and third party providers.

- (5) If the customer does not furnish the Company with a PVUC pursuant to the preceding paragraph (C) (1), the Company will utilize a customer PVUC of 0%.

(D) PVU Factor Updates

The customer may update the PVUC factor quarterly using the method set forth in Subsection (C)(1) and (4), above. If the customer chooses to submit such updates, it shall forward to the Company, no later than 15 days after the first day of January, April, July and/or October of each year, a revised PVUC factor based on data for the prior three months, ending the last day of December, March, June and September, respectively. The Company will use the revised PVUC to calculate a revised PVU. The revised PVU factor will only apply prospectively and serve as the basis for billing until superseded by a new PVU.

The customer must update the PVUC factor no later than September 15, 2012 to reflect the use of terminating VOIP traffic as delineated in Subsection (C)(1) and (4).

(E) PVU Factor Verification

Not more than twice in any year, the Company may ask the customer to verify the PVUC factor furnished to the Company. The customer shall comply, and shall reasonably provide the records and other information used to determine their PVUC, as specified in section (C) (1), and (4), above. The customer shall retain and maintain (for verification purposes) the records and other information used to determine the PVUC, for at least 12 months after the PVUC is filed (or longer if any other section of the Company's tariffs or applicable law requires a longer period). The verification process shall be conducted consistent with the provisions in Section 2.3.10(B) (D) (E) of BellSouth Telecommunications LLC Tariff F.C.C. No. 1.

(F) Verification Process

The Telephone Company will review these customer-provided PVUC records referenced in (E), above. If the review results represent what the Telephone Company considers to be a substantial deviation from the customer's previously reported PVUC or if the PVUC appears unreasonable as compared to other related types of data, the Telephone Company will contact the customer within 30 days. This deviation issue will be dealt with in one of the following ways. The current PVUC will continue to be utilized until resolution from either of the 2 methods below.

- 1) The Telephone Company and the customer will come to an agreement as to an appropriate PVUC within 30 days of the provision of the PVUC records.
- 2) Within 90 days of the receipt of these records, the Telephone Company will review or audit these records. If these PVUC records are not available or these records are not substantive enough to calculate a PVUC, then a PVUC factor of zero will be assigned. This zero PVUC will be utilized until either a PVUC can be agreed upon between the Telephone Company and the customer or an audit can be completed utilizing records acceptable for an audit conclusion. When an audit has been completed employing the records acceptable for an audit conclusion, the PVUC resulting from the audit will be employed until the next customer-provided PVUC is available as referenced in the (D) or (E) procedures above.

E2.3.21 Utilization of Alternative Access Providers

When the customer of record for an access service utilizes the service(s) of an alternative access provider, it will be the obligation of the customer to monitor the actions of the alternative access provider to insure that the customer's desired service interconnections and grades of service are maintained.

Note 1: Except where indicated herein, references to *BellSouth SWA FGs* will also include the applicable *BellSouth SWA* Basic Serving Arrangement as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term *BellSouth SWA* FGA represents both *BellSouth SWA* FGA and *BellSouth SWA* LSBSA).

E2.4 Payment Arrangements And Credit Allowances

E2.4.1 Payment Of Rates, Charges And Deposits

- A. The Company will, in order to safeguard its interests, only require a customer which has a proven history of late payments to the Company or does not have established credit to make a deposit prior to or at any time after the provision of a service to the customer to be held by the Company as a guarantee of the payment of rates and charges.

The Company will notify the customer of a deposit requirement by Certified Mail or Overnight Delivery. The customer will be required to make payment of such deposit prior to the provision of new service in those cases where the customer has not established credit with the Company, or otherwise within fifteen (15) days of such notice for customers with existing services. Such notice period will start the day after the notice is rendered by Certified Mail or Overnight Delivery.

E2.4.1 Payment Of Rates, Charges And Deposits

No such deposit will be required of a customer which is a successor of a company which has established credit and has no history of late payments to the Company. Such deposit may not exceed the actual or estimated rates and charges for the service for a two month period. The fact that a deposit has been made in no way relieves the customer from complying with the Company's regulations as to the prompt payment of bills. At such time as the provision of the service to the customer is terminated, the amount of the deposit will be credited to the customer's account and any credit balance which may remain will be refunded.

Such a deposit will be refunded or credited to the customer's account when the customer has established credit or, in any event, after the customer has established a one-year prompt payment record at any time prior to the termination of the provision of the service to the customer. In case of a cash deposit, for the period the deposit is held by the Company, the customer will receive simple interest at the same percentage rate as that set forth in B.3.b.(1) or (2) following whichever is lower. The rate will be compounded daily for the number of days from the date the customer's deposit is received by the Company to and including the date such deposit is credited to the customer's account or the date the deposit is refunded by the Company. Should a deposit be credited to the customer's account, as indicated preceding, no interest will accrue on the deposit from the date such deposit is credited to the customer's account.

If the dispute is submitted on or before the payment due date or within 90 days after the payment due date and the disputed amount is paid prior to the resolution of the dispute, any interest credits due the customer upon resolution of the dispute shall be calculated from the date of the overpayment to the resolution date. If the dispute is submitted more than 90 days after the payment due date and the disputed amount is paid prior to resolution of the dispute, and interest credits due the customer upon resolution of the dispute shall be calculated from the dispute date or the date the payment is made, whichever occurs later, to the resolution date. The Company will resolve the dispute and assess interest credits or late payment penalties to the customer as follows.

If the dispute is resolved in favor of the Company and the customer has paid the disputed amount on or before the payment due date, no credits or late payment penalties will apply to the disputed amount.

If the dispute is resolved in favor of the Company and the customer has withheld the disputed amount, any payments withheld pending settlement of the dispute shall be subject to the late payment penalty as set forth in b. preceding.

If the dispute is resolved in favor of the customer and the customer has withheld the disputed amount, no credits or late payment penalties will apply to the disputed amount.

If the dispute is resolved in favor of the customer and the customer has paid the disputed amount, the customer will receive a credit from the Company for the disputed amount times a penalty factor as set forth preceding. The penalty factor shall be the lesser of:

In addition, if the customer disputes the billed amount and pays the total amount (i.e., the undisputed amount and the disputed amount) on or before the payment date and the billing dispute is resolved in the favor of the customer, the customer will receive a credit for a disputed amount penalty from the Company if the billing dispute is not resolved within 10 working days following the payment date or the date the customer furnishes to the Company documentation to support its claim plus 10 working days, whichever date is the later date. The disputed amount penalty shall be the disputed amount resolved in the customer's favor times a penalty factor. The penalty factor shall be the lesser of:

- (1) The highest interest rate (in decimal value) which may be levied by law for commercial transactions or public utilities, compounded daily for the number of days from the first date to and including the last date of the period involved, or
- (2) 0.000590 per day, compounded daily for the number of days from the first date to and including the last date of the period involved.

E2.4.2 Minimum Periods (Cont'd)

- B.** The minimum period for which service is provided and for which rates and charges are applicable for a Specialized Service or Arrangement provided on an individual case basis, as set forth in E12. following, is one month unless a different minimum period is established with the individual case filing.
- C.** When a service is discontinued prior to the expiration of the minimum period, charges are applicable whether the service is used or not, as follows:
1. When a service with a one month minimum period is discontinued prior to the expiration of the minimum period, a one month charge will apply at the rate level in effect at the time service is discontinued.
 2. Except for High Capacity (a.k.a. BellSouth SPA High Capacity) Individual Case Basis (ICB) services and associated channelization listed in Sections E7. and E12., and for Channel Services Payment Plan(s) (CSPP), when a service with a minimum period greater than one month is discontinued prior to the expiration of the minimum period, the applicable charge will be the lesser of the Company's total nonrecoverable costs less the net salvage value for the discontinued service, or the total monthly charges, at the rate level in effect at the time service is discontinued, for the remainder of the minimum period.
 3. When a High Capacity (a.k.a. BellSouth SPA High Capacity) Individual Case Basis (ICB) Service(s) and associated channelization listed in Sections E7. and E12. is disconnected prior to the expiration of the minimum period, the termination charge as specified in the High Capacity (a.k.a. BellSouth SPA High Capacity) Individual Case Basis filing will apply.
 4. When channel equipment and or facilities are disconnected from a customer network, prior to the expiration of a Channel Services Payment Plan period, a termination charge under conditions specified in E2.4.9 will apply.
- D.** The minimum service periods for BellSouth Custom Network services and applicable rates and charges are provided in E7.7 for each arrangement. Regulations and applicable charges for disconnects and moves of service prior to the expiration of the minimum period are also specified in E7.7.

E2.4.3 Cancellation Of An Order For Service

Provisions for the cancellation of an Access Order for BellSouth SWA or Special Access (a.k.a. BellSouth SPA) service are set forth in E5.2.4 following.

E2.4.4 Credit Allowance For Service Interruptions

A. General

A service is interrupted when it becomes unusable to the customer because of a failure of a facility component used to furnish service under this Tariff or in the event that the protective controls applied by the Company result in the complete loss of service by the customer as set forth in Section 6.5.1 of Tariff FCC No. 1. An interruption period starts when the customer reports the interruption to the Company, and ends when the service is operative. (C)

B. When a Credit Allowance Applies

In case of an interruption to any service, allowance for the period of interruption, if not due to the negligence of the customer, shall be as follows:

1. For BellSouth SWA Dedicated Interoffice Channels, Channelization Equipment and Switched Local Channel, ***Dedicated End Office Trunk Port Service and Dedicated Tandem Trunk Port*** Special Access (a.k.a. BellSouth SPA) services and Fast Packet Access services, no credit shall be allowed for an interruption of less than thirty minutes. The customer shall be credited for an interruption of thirty minutes or more at the rate of 1/1440 of the monthly charges for the facility or service for each period of thirty minutes or major fraction thereof that the interruption continues.

E2.4 Payment Arrangements And Credit Allowances (Cont'd)

E2.4.4 Credit Allowance For Service Interruptions (Cont'd)

B. When a Credit Allowance Applies (Cont'd)

3. For BellSouth® SWA service and BellSouth Directory Assistance Access service, usage sensitive rate elements no credit shall be allowed for an interruption of less than twenty-four hours. The customer shall be credited for an interruption of twenty-four hours or more at the rate applicable for the service involved, for each period of twenty-four hours or major fraction thereof that the interruption continues. In the case of service billed based upon actual usage, no credit allowance is applicable.
4. The credit allowance(s) for an interruption or for a series of interruptions shall not exceed
 - a. the sum of the monthly rates or
 - b. the assumed minutes of use charge for the service interrupted in any one monthly billing period.
5. For certain Special Access (a.k.a. BellSouth® SPA) services (Wideband Digital, WD1-3; Digital Data Access (a.k.a. BellSouth® SPA DS0 Digital Data), DA1-4; and High Capacity (a.k.a. BellSouth® SPA High Capacity), HC1), any period during which the error performance is below that specified for the service will be considered as an interruption.
6. Service interruptions for Specialized Service or Arrangements provided under the provisions of Section E12. *of this Tariff* shall be administered in the same manner as those set forth in E2.4.4. unless other regulations are specified with the Individual Case Basis filing.
7. For the channels used with BellSouth Managed Shared Ring service or SMARTGate® service (a.k.a. BellSouth® SPA Managed Shared Ring Network), failure by the Company to meet the performance guarantee described in E7.5.1 of this Tariff will prompt the credit described in that Section. The combined total of the credit allowance during a month for failure to meet the performance guarantee in E7.5.1 *of this Tariff* for BellSouth® Managed Shared Ring and SMARTGate® service (a.k.a. BellSouth® Managed Shared Ring) in Section 6.7.21 of Tariff FCC No. 1 and Section E7.5.1 of this intrastate Tariff, as applicable, and the credit for service interruption contained in this section shall not exceed the monthly rate for the portion of the service affected. (C)
8. For BellSouth® Wavelength service, a credit for a service interruption of thirty minutes or more per occasion shall be 100 percent of the monthly charges for the BellSouth® Wavelength service. A customer must report the outage in order to receive service outage credit. The total credit received in any month shall not exceed the monthly rate for the service. (C)

C. When A Credit Allowance Does Not Apply

No credit allowance will be made for:

1. Interruptions caused by the negligence of the customer.
2. Interruptions of a service due to the failure of equipment or systems provided by the customer or others.
3. Interruptions of a service during any period in which the Company is not afforded access to the premises where the service is terminated.

E2.4 Payment Arrangements And Credit Allowances (Cont'd)

E2.4.7 Title Or Ownership Rights

- A. The payment of rates and charges by customers for the services offered under the provisions of this Tariff does not assign, confer or transfer title or ownership rights to proposals or facilities developed or utilized, respectively, by the Company in the provision of such services.

E2.4.8 Billing of Access Service Provided By Multiple Companies

The Company will adhere to the standards for billing of access service by multiple companies that are set forth in reference documents Ordering and Billing Forum: Multiple Exchange Carrier Access Billing (MECAB) and Ordering and Billing Forum: Multiple Exchange Carrier Ordering and Design (MECOD).

A. Feature Group A (FGA) Service¹

1. When a Feature Group A (*or LSBSA*²) Switched Access Service is ordered by a customer where one end of the Transport element is in the Company's operating territory and the other end is in another Exchange Telephone Company's operating territory, the Exchange Telephone Company in whose territory *FGA dial-tone office* is located, accept the order. In addition, the Exchange Telephone Company in whose territory the *customer's serving wire center* is located must also receive a copy of the order from the customer. The Exchange Telephone Company that accepts the order will then determine the charges involved, arrange to provide the Access Service ordered and bill the charges in accordance with its Access Service Tariff.

Upon agreement of the Exchange Telephone Companies involved in the provision of FGA service, the dedicated portion of FGA service (i.e., Switched Dedicated Interoffice Channel, Switched Local Channel and Channelization Equipment) will be billed in accordance with the provisions of B. and C. following. For non-dedicated portions of FGA service, including the Interconnection charge, the rates of the billing Company will apply.

(DELETED)

B. Single Bill Arrangements

1. General

If agreed to by the Exchange Telephone Companies involved in the provision of the service, a single bill *arrangement* will be *provided* for *FGB*¹, *FGC*, *FGD* and the *dedicated portions of* FGA. In the event that the Exchange Telephone Companies involved agree to change from one billing arrangement to another, the customer will be notified at least 30 days prior to the effective date of such change.

Note 1: Except where indicated herein, references to Feature Groups will also include the applicable Basic Serving Arrangement (BSA) as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term FGA represents both FGA and Line Side Basic Service Arrangement (LSBSA)).

(C)
(C)

Note 2: Where LSBSA is provisioned with a DNAL E2.4.8 shall also apply to the DNAL.

E2.4.8 Billing of Access Service Provided by Multiple Companies (Cont'd)

B. Single Bill Arrangements (Cont'd)

2. Ordering

The customer shall place its access service request with each Exchange Telephone Company involved in the provision of the service.

3. Rating and Billing of Service

The billing company will be as agreed to by the Exchange Telephone Companies involved in the provision of the service. The single bill arrangement may be provided under the following single bill alternatives if agreed to by such companies.

- a. The billing company will bill and collect all appropriate charges in accordance with the regulations, rates and charges in its Access Services Tariff, or
- b. The billing company will bill and collect all appropriate charges in accordance with the rates and charges in its access tariff, for the portion of the service it provides, and in accordance with the rates and charges of the access tariffs of the other Exchange Telephone Companies involved, for the portion of the service which they provide. ***The Interconnection Charge of the end office Telephone Company will apply.*** The bill will separately identify each company's rates and charges, or
- c. The billing company will bill and collect all appropriate charges in accordance with the rates and charges in the access tariffs of the other involved Exchange Telephone Companies, as forwarded to it by such companies for the portion of the service they provide, and in accordance with the rates and charges in its own access tariff for the portion of the service it provides. ***The Interconnection Charge of the end office Telephone Company will apply.*** The bill will separately identify each company's rates and charges.

For b. and c. preceding, the charges billed for the portion of service provided by this Company are determined as set forth in C.3.a., b. and c. following. For nonrecurring charges, one hundred percent of this Company's charge shall apply.

C. Multiple Bill Arrangements

1. General

Separate bills will be rendered by the Exchange Telephone Companies for ***FGB¹, FGC, FGD and the dedicated portions of FGA*** Access Service if the administration of a single bill arrangement, as set forth in E2.4.8.B., is not agreed upon by the companies involved. In the event that the Exchange Telephone Companies involved agree to change from one billing arrangement to another, the customer will be notified at least 30 days prior to the effective date of such change.

2. Ordering

The customer shall place its access service request with each Exchange Telephone Company involved in the provision of the service.

Note 1: Except where indicated herein, references to Feature Groups will also include the applicable Basic Serving Arrangement (BSA) as detailed in the matrix in Section 6.1.3 of Tariff FCC No. 1 (e.g., the term FGA represents both FGA and Line Side Basic Service Arrangement (LSBSA)).

C. Multiple Bill Arrangements (Cont'd)

3. Rating and Billing of Service

Each company will provide its portion of the Access Service based on the regulations, rates and charges contained in its Access Services Tariff, subject to the following rules, as appropriate:

- a. The charges billed by this Company for mileage sensitive rate elements, e.g., BellSouth SWA Transport, Special Access (a.k.a. BellSouth SPA) service Interoffice Channel or BellSouth Directory Assistance Access Transport, are determined as follows:

- (1) The total mileage for the service is computed using the V&H Coordinate Method set forth in Section E10.
- (2) A billing factor is determined from the NATIONAL EXCHANGE CARRIER ASSOCIATION, INC. TARIFF F.C.C. NO. 4 directly.¹
- (3) This Company's rates and charges are then multiplied by the appropriate quantity(ies) and the billing factor to obtain the charges for this Company.

An example of this methodology is shown in 4. following.

- b. The application of nondistance sensitive rate elements varies according to the rate structure and the location of the facilities involved:

- (1) When rates and charges are listed on a per point of termination basis, this Company's rates will be billed for the termination(s) within this Company's operating territory.
- (2) When rates and charges are listed on a per unit basis (e.g., central office bridging or channelization), this Company's rates and charges will apply for units located in this Company's operating territory. For switched access common transport between a Company access tandem and an end office of another company, 50% of this company's Common Transport DS3 to DS1 Multiplexer rate, as set forth in Section 6.8.1(B) of Tariff FCC No. 1, and this company's Directory Transport DS3 to DS1 Multiplexer rate, as set forth in Section E9.5.3(A)(2)(g) shall apply. (C)
- (3) When rates and charges are developed on an individual case basis, such rates will be developed for the portion of the service provided by this Company. (C)
- (4) When rates and charges are listed on a per service basis, this Company's rates and charges are allocated based upon the ratio of points on the access circuit that this company owns, in relation to the total number of points on the circuit.
- (5) For Special Access (a.k.a. BellSouth SPA) service, Interoffice Channel fixed rates, fifty percent of the Company's rate will apply for each end of the Interoffice Channel that this Company provides.

For example:

If the Interoffice Channel fixed rate is \$11.80, and this Company provides only one end of the Interoffice Channel, the rate would be fifty percent of \$11.80, or \$5.90.

If this Company does not provide either end of the Interoffice Channel, this Company's Interoffice Channel fixed rate shall not apply.

- (6) For Switched Interoffice Channel Facility Termination rates, fifty percent of this Company's rate will apply for each end of the Switched Interoffice Channel that this Company provides.

Note 1: See Tariff Addendum, Section 2 (FCC #4, sec 80A) or Section 3 (FCC #4, sec 80B).

C. Transport Payment Plan (TPP)

1. General

- a. The regulations and terms specified herein are applicable only to BellSouth Dedicated Ring, SMARTRing service (a.k.a. BellSouth Dedicated Ring), **BellSouth Metro Ethernet service** and/or BellSouth Wavelength service access services as indicated in the rate regulations in Section 6 of Tariff FCC No. 1 and Sections E7. and E29. of this intrastate Tariff. (C)
- b. The TPP allows customers to pay stabilized monthly rates for fixed service periods selected by the customer. The three payment plans offered are as follows:
 - (1) Payment Plan A, service periods may be selected from 12 months to 36 months in length.
 - (2) Payment Plan B, service periods may be selected from 37 months to 60 months in length.
 - (3) Payment Plan C, service periods may be selected from 61 months to 96 months in length.
- c. For conversions to the TPP arrangement, the number of months under the TPP arrangement must equal or exceed the number of months remaining under the CSPP arrangement.
- d. Termination liability charges and nonrecurring charges will not apply when a CSPP customer converts to a TPP arrangement.
- e. When the customer renews a TPP arrangement and the sum of months in service added to the new contract period is greater than the number of months for which the service is available under a TPP, the current Payment Plan C rates will apply.
- f. When the customer orders service to be provided under a TPP arrangement, the customer must designate to the Company the payment plan desired.
- g. Rates stabilized under a TPP arrangement are exempt from Company initiated increases, however, decreases for any rate element will automatically be reflected in the rates charged to the customer.
- h. Conversions of BellSouth Wavelength service, LightGate service (a.k.a. BellSouth SPA Point to Point Network), BellSouth Dedicated Ring and/or SMARTRing service (a.k.a. BellSouth Dedicated Ring) TPP arrangements to a higher order of CSPP service are allowed.

2. Application of Rates

- a. The stabilized monthly recurring rates as set forth in Section 6 of Tariff FCC No. 1 and Sections E7. and E29. of this intrastate Tariff are set as of the Application Date for BellSouth Dedicated Ring, SMARTRing service (a.k.a. BellSouth Dedicated Ring), **BellSouth Metro Ethernet service** and/or BellSouth Wavelength service provided that the actual service date does not exceed the latter of the following: (C)
 - (1) the Service Date under a standard service interval, or
 - (2) the earliest date by which service can be made available to the customer by the Company.
- b. If the customer desires a service date later than as provided in a. preceding, the stabilized monthly recurring rates in effect on the service date are applicable. (C)

3. Additions

- a. Additions of services or rate elements, to existing BellSouth Dedicated Ring and/or SMARTRing service (a.k.a. BellSouth Dedicated Ring) systems, to activate spare or unused capacities, must be activated under the same rate plan as the existing TPP arrangement. BellSouth Dedicated Ring and/or SMARTRing service (a.k.a. BellSouth Dedicated Ring) channel interfaces must be activated as set forth in Section 6 Tariff FCC No. 1 and Section E7. of this intrastate Tariff.

4. Disconnects

- a. Except as provided in b. through f. following, when a BellSouth Wavelength service, BellSouth Dedicated Ring, **BellSouth Metro Ethernet service** and/or SMARTRing service (a.k.a. BellSouth Dedicated Ring) rate element is disconnected prior to being in service for a 12-month period, (e.g., the minimum term for a Plan A TPP), the termination liability charge will be derived by multiplying the difference in rates between the current month-to-month rate and the rate for the TPP arrangement selected. For example, a customer subscribes to a TPP for 24 months (Plan A) and terminates service after 10 months. The termination liability charge will be applied by multiplying the number of months in service (10) by the difference between the month-to-month and Plan A monthly rates. With the exception of Renewal Options in 7. following, a four month minimum service period for BellSouth Wavelength service, BellSouth Dedicated Ring, **BellSouth Metro Ethernet service** and/or SMARTRing service (a.k.a. E2.4.10 Service Installation Guarantee

- A. The Company assures that orders for services to which the Service Installation Guarantee applies will be installed and available for customer use no later than the Service Date as specified in E5.2.4.B following. The Service Installation Guarantee is applicable only as specified in Section 6.7.1 of Tariff FCC No. 1 and Section E7.4.1.A of this intrastate Tariff. (C)
- B. The failure of the Company to meet this commitment will result in the credit of an amount equal to the nonrecurring charges associated with the individual service having the missed Service Date being applied to the customer's bill. The credit will include only nonrecurring charges associated with the services specified in Section 6.7.1 of Tariff FCC No. 1 and Section E7.4.1.A of this intrastate Tariff for which nonrecurring charges are applicable. The nonrecurring charges will be credited at the rate at which they were billed. The credit will not be provided if a credit of the same nonrecurring charge for the same service is provided under any other provisions of this Tariff. (C)
- C. Service Installation Guarantees do not apply:
1. when failure to meet the Service Date occurs because of:
 - a. any act or omission, which shall include an accurate and complete service order from this customer, any other customer or any third party, or of any other entity providing a portion of a service,
 - b. labor difficulties, governmental orders, civil commotions, criminal actions against the Company, acts of God, war, or other circumstances beyond the Company's control,
 - c. unavailability of the customer's facilities and/or equipment,
 2. to service requiring Special Construction as set forth in Section E14 following,
 3. to Specialized Service or Arrangements or Individual Case Basis filings,
 4. for jointly provisioned services except as stipulated *in* 5 following
 5. to BellSouth SWA or Special Access (a.k.a. BellSouth SPA) installation, moves and arrangements of service with an agreed upon service date interval of four business days or less following the Application Date of the service order.

In addition, Service Installation Guarantees will not apply during a declared National Emergency. Priority installation of National Security Emergency Preparedness (NSEP) telecommunications services shall take precedence.

D. BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening Service

BellSouth SWA 8XX Toll Free Dialing Ten Digit Screening service, as described in Section 6.2.5 of Tariff FCC No. 1, the customer shall order in the same manner which is set forth preceding for ordering **BellSouth SWA** FGD or **BellSouth SWA** TSBSA 3 service except that the customer must order **BellSouth SWA** FGD or **BellSouth SWA** TSBSA 3 service to all access tandems or direct connections to all end offices designated by the Company as Service Switching Points for **BellSouth SWA 8XX Toll Free Dialing** Ten Digit Screening service within the LATA. Direct trunk routes cannot be provided unless the end office is equipped to provide the customer identification function. All traffic originating from end offices not equipped to provide the customer identification function require routing via the serving access tandem at which the function is available. Service must be ordered accordingly.

The customer will also be responsible for reporting to the Company the percent interstate usage (PIU) for **BellSouth SWA 8XX Toll Free Dialing** Ten Digit Screening service as set forth in E2.3.14 preceding.

E. BellSouth 8XX Number Administration Service

When ordering **BellSouth 8XX Number Administration** service as described in E13.3.12 following, the customer must, at a minimum, provide the following information to the Company:

- Area of service¹
- Name(s) of intraLATA and interLATA carrier(s), as applicable
- Access Carrier Name Abbreviation (ACNA) Code of the interLATA and intraLATA carrier, as applicable
- Activation date

When the POTS number is to be delivered to a customer, the customer must provide the full 10 digit POTS number to be associated with the 800 number and must indicate to whom the POTS number is to be delivered. In addition, the customer must also provide the POTS numbers associated with the intraLATA portion of **BellSouth SWA 8XX Toll Free Dialing** Ten Digit Screening for subscribers who will use the Company for intraLATA **BellSouth SWA 8XX Toll Free Dialing** Ten Digit Screening service.

For the transport of any intraLATA 800 call by the Company, the customer must provide the end user billing information necessary for the Company to bill the appropriate intraLATA rates.

If the customer desires any of the options available with **BellSouth 8XX Number Administration** service as set forth in E13.3.12 following, these must also be specified on the order for service.

 2. populate the project field on the access service request with "BST-RAS" and
 3. negotiate service intervals for BellSouth® Remote Access Service.

E5.2.2 Reserved for Future Use

E5.2.3 Access Order Modifications

- A.** The customer may request a modification of its Access Order at any time prior to notification by the Company that service is available for the customer's use or prior to the service date, whichever is earlier. The Company will make every effort to accommodate a requested modification when it is able to do so with the normal work force assigned to complete such an order within normal business hours. If the modification cannot be made with the normal work force during normal business hours, the Company will notify the customer. If the customer still desires the Access Order modification, the Company will schedule a new service date. All charges for Access Order modification will apply on a per occurrence basis.
- B.** Any increase in the number of Special Access (a.k.a. BellSouth SPA) service channels, Switched BellSouth SWA service lines, trunks or Switched BellSouth SWA Transport Facilities or CCS7 Signaling Connections and CCS7 Signaling Terminations will be treated as a new Access Order (for the increased amount only).
- C.** If order modifications are necessary to satisfy the transmission performance for a Special Access (a.k.a. BellSouth SPA) service ordered by a customer, these changes will be made without order modification charges being incurred by the customer.

E5.2 Access Order (Cont'd)

E5.2.3 Access Order Modifications (Cont'd)

D. Service Date Change Charge

1. Access Order service date for the installation of new services or rearrangements of existing services may be changed, but the new service date may not exceed the original service date by more than 30 calendar days. When, for any reason, the customer indicates that service cannot be accepted for a period not to exceed 30 calendar days, and the Company accordingly delays the start of service, a Service Date Change Charge will apply. If the customer requested service date is more than 30 calendar days after the original service date, the order will be cancelled by the Company and reissued with the appropriate cancellation charges applied unless the customer indicates that billing for the service is to commence as set forth in E5.2.4.A. following.
2. Failure to notify the Company prior to the original service date to request a different service date may result in the application of a Service Date Change-Additional Dispatch Charge for installations, moves and rearrangement of services. If a Company technician is dispatched to the Customer's premises on the scheduled service date and the customer has failed to notify the Company before three o'clock p.m. EST on the business day prior to the scheduled service date that it wishes to change the service date, the Company will delay the start of service pending negotiations with the customer. If the customer reschedules the service date, a Service Date Change-Additional Dispatch Charge will apply in addition to a Service Date Change Charge as specified in 4(a), following. If the customer cancels the service date, cancellation charges will apply in accordance with terms and conditions for cancellation charges as set forth in E5.2.4 following. Cancellation of the order will not preclude the application of the Service Date Change Charge and Service Date Change-Additional Dispatch Charge assessed for prior occurrences on the same order.
3. A new service date may be established that is prior to the original service date if the Company determines it can accommodate the customer's request without delaying service dates for orders of other customers.
4. A Service Date Change Charge will apply, on a per order per occurrence basis, for each service date changed. ***The Service Date Change-Additional Dispatch Charge will apply for each occurrence of a technician dispatch to the customer's premises when the customer is not ready for service as specified in .D.2 preceding. The applicable charges are:***

	Nonrecurring Charge	USOC
(a) Service Date Change Charge, per order	\$33.37	OMC
(b) Service Date Change-Additional Dispatch Charge, per occurrence	\$150.00	OMCAD

5. For multiple orders with the same service date for the same customer premises, only one Service Date Change-Additional Dispatch Charge will apply. However, a Service Date Change Charge will apply for each order.
6. Service Installation Guarantees, as set forth in E2.4.10 of this Tariff, are not applicable for Service Date Change Charges.

E. Partial Cancellation Charge

1. Any decrease in the number of ordered Special Access (a.k.a. BellSouth SPA) service channels, BellSouth SWA service lines, trunks or BellSouth SWA Transport facilities or BellSouth SWA CCS7 Signaling Connections will be treated as a partial cancellation and the charges as set forth in E5.2.4.B. following will apply.

E5.2 Access Order (Cont'd)

E5.2.3 Access Order Modifications (Cont'd)

F. Design Change Charge

1. The customer may request a design change to the service ordered. A design change is any change to an Access Order, which requires engineering review. An engineering review is a review by Company personnel of the service ordered and the requested changes to determine what changes in the design, if any, are necessary to meet the changes requested by the customer. Design changes may include such things as the addition or deletion of optional features or functions or a change in the type of BellSouth SWA Transport Termination, type of channel interface, type of Interface group or technical specification package. Design changes do not include a change of customer premises, end user premises, end office switch, Feature Group type, BSA type or Special Access (a.k.a. BellSouth SPA) service channel type. Changes of this nature will require the issuance of a new order and the cancellation of the original order with appropriate charges applied.
2. Should a customer requested Design change be received on a pending access order that results in the establishment of a new service date that exceeds the original service date by more than 30 days, the customer shall not be required to cancel and reissue a new order, but shall be billed a Design Change Charge and a Service Date Change Charge.
3. The Company will review the requested change, notify the customer whether the change is a design change, if it can be accommodated and if a new service date is required. If the customer authorizes the Company to proceed with the design change, a Design Change Charge will apply. The Design Change Charge will apply on a per order, per occurrence basis, for each order requiring a design change.
4. The applicable charge is:

(a) Design Change Charge, per order

33.37

H28

Service Installation Guarantees, as set forth in E2.4.10 of this Tariff, are not applicable for Design Change Charges.

5. If a change of service date is required, the Service Date Change Charge as set forth in D. preceding will also apply.

(M)

(M)

E5.2.4 Cancellation Of An Access Order

- A.** A customer may cancel an Access Order for the installation of service at any time prior to notification by the Company that service is available for the customer's use. The cancellation date is the date the Company receives written or verbal notice from the customer that the order is to be cancelled. The verbal notice must be followed by written confirmation within 10 days.

If a customer or a customer's end user is unable to accept Access Service within 30 calendar days of the original service date, the customer has the choice of the following options:

1. The Access Order shall be cancelled and charges set forth in B. following will apply, or
2. billing for the service will commence.

In any event, the cancellation date or the date billing is to commence (depending on which option is selected by the customer), shall be the 31st day beyond the original service date of the Access Order.

E5.2.4 Cancellation Of An Access Order (Cont'd)

- C. When a customer cancels an order service for BellSouth® Dedicated Ring, SMARTRing® service (a.k.a. BellSouth® Dedicated Ring) *or BellSouth® Wavelength service* prior to the beginning of the selected service period, the customer will be liable for all capital expenses incurred by the Telephone Company in provisioning the BellSouth® Dedicated Ring, SMARTRing® service (a.k.a. BellSouth® Dedicated Ring) *or BellSouth® Wavelength service* as of the date the order is canceled by the customer. The charges billed to the customer will not exceed an amount equal to the minimum period for the service as set forth in E5.2.6 *following and in* Section 6.7.2 of Tariff FCC No. 1 and Sections E7.4 and E29.1.2 of this intrastate Tariff at the month-to-month rates set forth in Section 6.8 of Tariff FCC No. 1 and Sections E7.5 and E29.1.6 of this intrastate Tariff. Such charges will be billed in addition to and subsequent to the cancellation charges set forth in B. preceding. (C)
- D. When a customer cancels an order for the discontinuance of service, no charges apply for the cancellation.
- E. If the Company misses a service date by more than thirty days due to circumstances over which it has direct control (excluding, e.g., acts of God, governmental requirements, work stoppages and civil commotions), the customer may cancel the Access Order without incurring cancellation charges. (C)

E5.2.5 Selection of Facilities For Access Orders

- A. When a customer places an Access Order, it may choose to utilize facilities it previously purchased as a facility to a Hub. If the customer has a high capacity facility for use with BellSouth® SWA service Interface Groups 6 or 9, or has a Special Access (a.k.a. BellSouth® SPA) service facility purchase to a Hub, the customer must request that specific channels be used to implement the Access Order. If a connecting assignment is not provided by the customer, the Company will provide the service from available inventory as discussed in E5.3 following.
- B. For all other Access Orders, the option to request a specific transmission path or channel is not provided except as provided for under Special Facilities Routing as set forth in E11. *of this Tariff*.

E5.2.6 Minimum Period

- A. Except as set forth in E2.4.9 of this Tariff, B., D., E., and in E7.7, E8.2.1.E.2, E8.2.2.E.2, and E13.3.5.F.1b., c., d. of this Tariff, the minimum period¹ for which charges are applicable for Access Service is one month.
- B. Service Rearrangements¹ and Transfer of Service as set forth in Section 6.7.1 of Tariff FCC No. 1 and Sections E7.4.1 and E29.1.4 of this intrastate Tariff for BellSouth SWA and Special Access (a.k.a. BellSouth SPA) services respectively, may be made without a change in minimum period requirements. (C)
- C. Changes other than those identified in Section 6.7.1 of Tariff FCC No. 1 and Sections E7.4.1¹, E7.7 or E29.1.4 of this intrastate Tariff will be treated as a discontinuance of the existing service and an installation of a new service. All associated nonrecurring charges will apply for the new service. A new minimum period will be established for the new service. The customer will also remain responsible for all outstanding minimum period obligations associated with the disconnected service. (C)
- The changes listed below are those which will be treated as a discontinuance and installation of service and for which a new minimum period will be established.
1. A move to a different building as set forth in Section 6.7.7 of Tariff FCC No. 1 and Sections E7.4.5 or E29.1.4 of this intrastate Tariff. (C)
2. A change in type of service (i.e., BellSouth SWA to Special Access (a.k.a. BellSouth SPA), one type of Special Access (a.k.a. BellSouth SPA) to another, or one type of Switched Access BellSouth SWA service to another or one type of BellSouth SWA Basic Service Arrangement/BellSouth SWA Basic Service Arrangement Technical Option to another except as set forth in Section 6.7.6 of Tariff FCC No. 1). (C)
3. A change in the type of Switched Local Channel, Special Access (a.k.a. BellSouth SPA) service local channel or Optical Transport Access Service Wavelength Channel.
4. A change in BellSouth SWA or BellSouth Directory Assistance Service Interface Group.
5. Change in Switched Access BellSouth SWA service traffic type.
- D. The minimum service period for BellSouth Wavelength service, BellSouth Dedicated *Ring*, *BellSouth Metro Ethernet service* and SMARTRing service (a.k.a. BellSouth Dedicated Ring) is 4 months
- E. The minimum service period for BellSouth Remote Access Service is twelve months.
- F. A customer may request disconnect of an access service at any time after the service has been established. The customer must give the Company at least one business day written or verbal notice prior to the desired disconnect date. The one business day notice period will begin on the date the Company first receives the disconnect notification, either written or verbal. The verbal notice must be followed by written confirmation within ten days.
- G. When Access Service is disconnected prior to the expiration of the minimum period, the customer is obligated for payment of the minimum period charge as set forth in E5.6.1 following. When Access Service is disconnected after the expiration of the minimum period, billing for the service will be performed in accordance with the provisions set forth in E2.4.1.C. of this Tariff.

E5.2.7 Minimum Period Charges

- A. When Access Service is disconnected prior to the expiration of the minimum period, the customer is obligated for payment of the minimum period charge as set forth following. When Access Service is disconnected after the expiration of the minimum period, billing for the service will be in accordance with E2.4.1 of this Tariff. The disconnect date is the final date the customer has use of the service.

Note 1: Specific regulations for BellSouth Metro Ethernet service minimum period, service rearrangements (reconfigurations) and changes are provided in E7.4.32 of this Tariff.

E5.4 Shared Network Arrangement

- B.** The *BellSouth SWA* DS3 and *BellSouth SWA* DS1 service customers who are sharing capacity on their services with others are considered to be the host customers under these arrangements. The host customer is the customer of the higher level service and is solely responsible for payment of the rate elements for such level of service, from the customer terminal location through channelization. Each service customer of the lower level service is responsible for payment of the charges associated with the lower level service. Under the SNA, the Company may share with the host customer record information pertaining to the services of other users of the shared network. Such disclosure will be under the sole discretion of the Company as is necessary to perform billing reconciliations and/or other functions required in connection with maintaining account records.
- C.** Each subscriber entering into the SNA is solely responsible to the Company for charges associated with that customer's portion of the shared network.
- 1.** For example, for Switched Access Dedicated Transport Shared Network Arrangements, the host customer would be responsible for a *BellSouth SWA* DS3 service Switched Local Channel and the DS3 to DS1 Channelization Equipment. The service user will be responsible for payment of the Switched Dedicated Interoffice Channel charges as well as any end office based *BellSouth SWA* charges associated with the service.
- D.** Disconnection of the service by the host customer does not relieve another user of the shared network of any obligation to pay access charges associated with the portion of the shared network to which that user subscribes. Billing for services and facilities will continue until a disconnect request from the service user has been received by the Company. The host customer is solely responsible for notifying the connecting service user in the event of disconnection of the host's service which affects that portion of the shared network service to which the user has subscribed.
- E.** SNAs can be utilized on any of the following rate elements which comprise a service arrangement within a shared network:
- Switched Local Channel
 - Switched Access Channelization Elements
 - Switched Access Dedicated Interoffice Channels
- F.** A one-time coordination charge will be assessed with the establishment of a Shared Network Arrangement. The host customer and the service user may, by mutual agreement, designate which party will be responsible for payment of the coordination charge. In the event no such agreement is reached, the charge will be applied to the host customer's account and the host customer will be responsible for payment of said charge.
- G.** Shared Network Arrangement coordination charges for *BellSouth SWA* services are shown in Section 6.8.7 of Tariff FCC No. 1. Additionally, a separate nonrecurring charge will apply to process each service order on a shared network account.

E6. BELLSOUTH SWA SERVICE

In response to the Federal Communications Commission's (FCC's) Report and Order and Further Order of Proposed Rulemaking (USF/ICC Order), FCC No. 11-161 released November 18, 2011 this section concurs in BellSouth Telecommunications, LLC's (BST's) Tariff FCC No. 1, Section 6, which can be accessed via the following hypertext link:

<http://cpr.att.com/pdf/fcc/1006.pdf>

Exceptions to this concurrence of BellSouth Telecommunications, LLC's (BST's) Tariff FCC No. 1, Section 6, are as listed below. The following cited exceptions relate to that specific section in the interstate Tariff FCC No. 1.

E6.1 General

E6.1.1 BellSouth SWA Service Arrangements and Manner of Provision

E6.1.1 (A) BellSouth SWA FGA

In lieu of the language in Tariff FCC No. 1, the following applies to the intrastate jurisdiction.

BellSouth SWA FGA, which is available to all customers, provides line side access to Company end office switches with an associated seven digit local telephone number for the customer's use in originating and terminating communications from or terminating communications to an Interexchange Carrier's intrastate service or a Company-provided, end-office based, intrastate private network switching service. When a customer certifies that it is providing an intrastate, interLATA private network switching function for the end user at its terminal location, the end user may order BellSouth SWA FGA for off-network access. Otherwise, the customer may order such access. An end user is restricted to ordering BellSouth SWA FGA for off-network access associated with private network switches. Additionally BellSouth SWA FGA FX/ONAL type services will be billed directly to the end user (subscriber) of these services. Customers are not restricted and in addition to the off-network access capability, customers can order BellSouth SWA FGA in connection with providing interLATA foreign exchange service and MTS-like service. When associated with a Company-provided, end-office based private network switch, end users must order BellSouth SWA FGA for off-network access. When BellSouth SWA FGA service is ordered by an end user for use with a Company provided private network switch, the end user must specify the customer that provides the interLATA links of the private network service. If an end user provides the interLATA links of its private network, the end user may order BellSouth SWA FGA for off-network access. A more detailed description of BellSouth SWA FGA is provided in 6.2.1 of Tariff FCC No 1.

The Company will bill BellSouth SWA FGA FX/ONAL type service directly to the customer's end user, and the end user will be subject to the deposit, payment and credit arrangements as specified in E2.4.1 of this intrastate tariff.

E6.1.1 (J) BellSouth Local Number Portability Database Services do not apply to the intrastate jurisdiction.

E6.1.3 (A) BellSouth SWA Transport

E6.1.3 (A)(1) In addition to the language in Tariff FCC No. 1, the following also applies to the intrastate jurisdiction. Switched Local Channel charge will be applicable when associated with services ordered by End Users which are utilizing a Company-provided, end office based private network switching system.

E6.1.3 (A) BellSouth SWA Transport

E6.1.3 (A) (6) Interface Group Arrangements

Interface Group 3 is not applicable to the intrastate jurisdiction.

E6.1.3 (A) (6) (i) CCS7 Signaling Connection Premises Interface Codes

ATM circuit emulation connecting to FGD trunks is not applicable to the intrastate jurisdiction.
